ABOUT US

For over thirty-five years, CLC Work Gear has been making rugged, innovative work gear aimed at meeting the needs of contractors, technicians and craftsmen. Our products are made for the most heavy-duty work environments out there. It's all in the details, from the design and our patented features to choosing the right fabric, the perfect stitching, the layering of materials, and the reinforcing of specific features.

CLC PRIDES itself on quality, durability and innovation. Our designs are based on real work situations. And we always strive to be one step ahead — to develop new features you didn't know you needed until you can't do without them. Our motto is "think outside the toolbox." That means listening, finding out how our customers work and exactly what they need, and then creating products that deliver in every way.

We continuously evaluate and reinvent. We've innovated pouch pockets, pouch handles, bag trays, kneepads, gloves — features our customers love and our competitors imitate. If it doesn't add value, we don't add it.

FOUNDED IN 1982, CLC quickly aimed at the need to conveniently carry one's tools at all times. Today's craftsmen are more on the go than ever. Our bags and

packs are durable and ergonomically designed to be easily handled and carried, adjusted for the mobile craftsman of today. That's why our packs include built-in charging capabilities for phones, tablets and other devices.

We never stop thinking of what works, what's needed and how we can provide new functionality in a sturdy, safe and stylish way. We anticipate, innovate and deliver. When a product goes out with our name on it, we've put absolutely everything we can into it.

OUR PHILOSOPHY is simple: make great products at a great value that improve your working day — work gear that lasts. We do this for you — the people who use our products — so you can think outside the toolbox and focus on the work you take pride in, and all that you are going to accomplish.

TOOL BACKPACKS

CLC tool backpacks are exquisitely designed, technology driven, heavy-duty tool bags for professional contractors, technicians and craftsmen.

The padded shoulder straps and back panel provide a comfortable, hands-free way to transport your tools. Featuring smartly engineered layering of durable fabrics. Bringing you the next generation of tool storage, some **CLC** tool backpacks also come with a built-in LED light for low light situations, and a power pack for on-the-job repowering of phones, tablets and other devices.

Backpack includes

Charging Power Bank, LED Light System, Internal USB Charging Ports, Internal Charging USB Connector, Micro USB Power Bank, Recharge Connector Cable.

CL1ECPL38

- Quick release chest buckle
- Works with our combo tool belts CL1051452, CL1021448, CL1001604

TOOL LANYARDS

Our tool safety lanyards help reduce the risk of a dropped tool injuring anyone working below by mitigating the dynamic forces at play.

Choosing the right tool lanyard is crucial for safety on a work site, and the shock cords of our lanyards, used properly, will support the weight of the object (up to 2.5 kilos) and the force of the fall, preventing a drop from causing harm. Just attach one end of your CLC lanyard to yourself (or a structure) and the other to your hand tool.

We offer several lanyards to choose from—and it all comes down to the tool's weight and how it's attached to a worker or structure.

#CL1001025

Tool Lanyard, Interchangeable

Wild River Nomad[®], Lighted Backpack

The Wild River Nomad[®] is Wild River's soft tackle "single solution" bag. It has an integrated LED light system that allows you to see into the bag or your work area when natural light gets scarce. It also features a large upper storage area with a removable divider which can convert this bag to a full-size backpack for holding larger items. Base pads to reduce wear and help keep the bag clean and dry. Protective rain cover is included.

- Integrated LED light system and the front pocket cover folds down to provide a handy work surface.
- Lower tray compartment for storage of up to 4 medium #3600-style trays.
- Removable plier holder and removable self-retracting steel cable lanyard for tools.
- Permanently mounted molded sunglass holder helps keep your glasses safe.
- Large adjustable padded shoulder straps with added sternum strap

Dimensions approx: 36 × 25 × 52 cm

• U.S. and Int'l Patents Pending

#CL1WT3503

Wild River Recon, Lighted Compact Backpack

The Recon is Wild River's compact tackle backpack and is a smaller version of our Wild River Nomad®. It comes with an integrated LED light system that allows you to see in the backpack, or your work surface, when the sun goes down. Mesh pockets to easily see the contents and large padded shoulder straps for added comfort. Protective rain cover is included.

- Integrated LED light system allows for fishing from dusk to dawn.
- Storage of up to four #3500-style or two #3600-style trays.
- Clear internal pocket to keep your maps and licenses visible but dry.
- Removable plier holder and removable self-retracting steel cable lanyard for tools.
- Web loops to secure tool.

Dimensions approx: 32 × 19 × 40 cm

• U.S. and Int'l Patents Pending

Wild River Nomad XP, USB E-Charge Lighted Backpack

The Wild River Nomad® XP Lighted Backpack includes an integrated 5000mAh rechargeable USB power supply designed to extend the battery life of small portable electronic devices. It also features an integrated rotating 3-level LED light system that can illuminate both the backpack's interior and outside work area. Additionally, it can hold up to six 3600-series and four 3500-series trays.

- Built-in rechargeable USB power supply for charging portable devices.
- LED light system with white or green light options for inside and out.
- Multiple pockets including dual-function front utility pocket
- Rubberized base pads to limit wear and keep things dry.
- Large adjustable padded shoulder straps with added sternum strap for better comfort and fit.

Dimensions approx: 36×25×52 cm

Hultafors Group is one of Europe's largest companies to supply workwear, footwear, head protection, hand tools and ladders for professional users. The products are developed, manufactured and marketed as their own brands, which are available through leading distributors in about 40 markets, with emphasis on Europe and North America. Hultafors Group has more than 1,000 employees and rolling net sales of almost SEK 5.5 billion. **Hultafors Group AB**, Berga Backe 2, 182 53, Danderyd, Sweden hultaforsgroup.com
