

**Bringing you the best
in eye, face and
hearing protection.**

Hellberg

This is Hellberg

Hellberg Safety makes protective equipment for your eyes, face and hearing.

Founded in Sweden in the early 1960s we are working hard to perfect personal protection, for everyone working in excessive noise or other hazardous environments. Giving them Peace of Mind.

Every product we develop brings together state-of-the-art technology, impeccable user experience and unquestionable quality. Together these aspects instil confidence and trust in our users. Peace of mind. Knowing they can always work safely and effectively – and have more time and energy for everything they love.

Active Hearing Protection

Active hearing protectors, with features such as AM/FM radio, Bluetooth® and Active Listening, eliminate any need to remove your hearing protection at work.

New

Active Hearing Protection

Features

Bluetooth®

Wireless connection via Bluetooth®. Make phone calls and stream your favourite music.

Multi-Point Bluetooth®

Multi-Point Bluetooth® lets you pair two phones at the same time.

Wideband Audio HD Voice

Prepared for Wideband Audio, which enhances telephone audio quality.

Boom microphone

The boom microphone allows clear communication even in extreme noise environments.

Active Listening

Microphones in each ear cup allow you to communicate with your colleagues and stay alert to warning signals.

Two-way communication

Wireless communication between Headset to Headset.

Patented Speaker Design

The unique speaker design offers a great listening experience.

Designed for Music

Developed with music listening in focus.

3.5 mm Audio Input

Connect to communication radios or other audio devices.

FM/AM Radio

Latest generation AM/FM Radio with excellent sound quality and reception.

USB-charging

Charge from a wall socket or from the USB socket in your PC or car.

Waterproof

IP class waterproof.

App Support

Works with Hellberg mobile app.

Local series

Local is a headset and hearing protector, featuring a built-in communication radio that allows for two-way communication over the local worksite. The wireless headset to headset link is ideal for short message communication on the job, increasing work-site efficiency and safety.

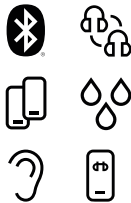

Local 2 New

The license-free PMR 446 MHz technology enables efficient communication within a range of up to 3 km between an unlimited number of headsets or workgroups. For increased accessibility and safety Multi-Point Bluetooth® technology is integrated into the headset, for connecting up to two mobile phones.

The noise cancelling boom microphone provides crystal clear speech quality even in high background noise, and the active listening microphones let you hear what's going on around you.

Unleash the full power of Local 2

With the Hellberg mobile app, you can control the Local 2 directly from the app. Create workgroups with unique channels and settings, allow or limit certain functions, set rules and conditions for workgroups. Available for iPhone and Android devices.

**Listen to music.
With great sound quality.**

Xstream series

Hearing protection with Bluetooth for music streaming. Xstream connects via Bluetooth to your phone for wireless music streaming and phone calls. Your hearing is protected while you enjoy your favourite music with excellent sound quality.

Xstream MP New

Hearing protection with Multi-Point Bluetooth® technology for phone calls and music streaming. Xstream MP lets you pair two phones at the same time, for example a work phone and a private phone. The sound quality has been enhanced even more in comparison to the

models Xstream and Xstream LD, the battery life is extended to 80 hours, and the noise-cancelling boom microphone, now included, allows clear communication even in extreme noise environments.

Active

- Hear your surroundings without removing the hearing protection
- Active Listening microphones

Headband 47002-001

Helmet Mount 47102-001

Relax

- Listen to radio while working
- Great sound and radio signal quality

Headband 45002-001

Helmet Mount 45102-001

Keep your hearing protection on

Hellberg offers a wide range of hearing protection with a variety of features such as active listening, Bluetooth® and two-way communication, to ensure that your hearing is protected at all times. Choose the right hearing protectors for your needs – that way you never need to remove them while exposed to dangerous noise.

React

- Listen to radio while working
- Hear your surroundings without removing the hearing protection

Headband 46002-001
Helmet Mount 46102-001

Synergy MP

- Bluetooth® for streaming and phone calls
- Pair with two phones
- Supports voice assistants and Wideband audio

Headband 49012-001
Helmet Mount 49112-001

Passive Hearing Protection

- Very comfortable and light weight
- Replaceable hygiene kit with snap-in system
- Color-coded protection levels 1–2–3
- Four different models
- Junior model for kids in fun colours

Secure series

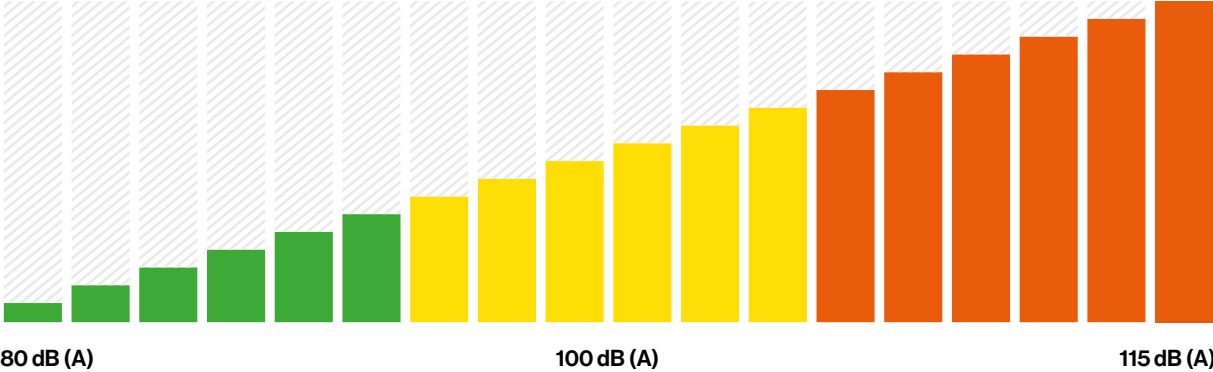

1
Low to medium noise
75–90 dB

2
Medium to high noise
90–110 dB

3
High to very high noise
100–115 dB

The “Protection Level Graph” can be used as a guide when selecting hearing protection. To be sure you get the correct level of protection, always conduct a noise assessment in your work place.

Secure Headband
Easy size adjustment provides a perfect fit

Secure Helmet Mount
Approved with most popular safety helmets

Secure Neckband
Suitable to wear under a cap, welding mask or a wide brimmed helmet

Secure Foldable
Compact when folded for convenient storage
